I'm using Git as the storage mechanism for a project, but I'm not the sole developer. Is it considered a best practice to have a "README.txt" file or is it ok to just "emphasize" the fact that this is a Git repo? I'm not quite sure if it's common for git repos to be used by multiple developers because of the concept of branching. Would it be ok to have a README.txt for that case? A: Having a README.md is best practice. It is human readable, while a text file is generally quite dumb. A: I think it's best practice to put
