Cosby — who has been accused of sexual misconduct by more than 60 women — has a 33-year-old son, Ennis Cosby, from his relationship with late model Elisa Alvarez. Sources told TMZ that a grand jury has been meeting to decide if there is sufficient evidence to file charges of human trafficking or tax evasion. Cosby, who turns 80 this year, was also investigated by the US Department of Labor in 2017 for failing to pay payroll taxes, according to published reports. It's unclear exactly what the investigation by the Department of Justice includes, but a spokesperson for the Federal Bureau of Investigation told The Post it would not comment. This is not the first time Cosby has been accused of sexual misconduct. The actor has been accused of assaulting at least one woman in the 1980s. The former 'America's Funniest Home Videos' host was acquitted of three counts of aggravated indecent assault in an October 2015 trial. The conviction, which he admitted to sexually assaulting a woman in 2004, sparked Cosby's 2015 fall from grace. Cosby reportedly gave hundreds of pounds worth of jewelry, money and household goods to the accuser as part of a settlement agreement. Cosby has also been accused of sexual misconduct by dozens of women over several decades. One of the more famous cases revolved around Andrea Constand, who alleges Cosby drugged and sexually assaulted her in 1997. Former Playboy Bunny Janice Dickinson, who is his former financial adviser, released a book, 'The Truth Is Not Sexy: My Life as a Playboy Bunny', that accused the comedian of sexually assaulting her in 1976. The allegations of sexual misconduct against Cosby have spurred several legal fights with accusers. Judge Steven O'Neill, from Pennsylvania, suspended his case against Cosby in July 2018 after finding that the comedian was entitled to public funds to pay for his defense. O'Neill based his ruling on the fact that Cosby was convicted in a previous case, which remains one of the only criminal convictions in
